Accountability, Social Responsibility and Sustainability: accounting for society and the environment is a new book written for accounting/ business /sustainability professionals, scholars, researchers and policy makers who recognise the central role that organisations, accounting, finance, accountability and management play in the future well-being of society, communities, our planet and companies themselves. It is for those who want to be part of doing things differently.

**Accountability, Social Responsibility and Sustainability ...**

Accountability is the acknowledgement of responsibility by an organization for actions, decisions, products, and policies that it undertakes. Stakeholders expect that businesses will act in a responsible manner. Sustainability is a business philosophy in which a company considers its accountability for its social and ecological impacts.

**Accountability for Sustainability - GHHub Pages**

Sustainable programme and project management. UNDP recognizes that social and environmental sustainability are fundamental to the achievement of sustainable development outcomes, and therefore must be fully integrated into our Programmes and Projects. To ensure this we have the following key policies, procedures and accountability mechanisms in place to underpin our support to countries:
