New and thoroughly updated, *Epistemology: An Anthology* continues to represent the most comprehensive and authoritative collection of canonical readings in the theory of knowledge. Concentrates on the central topics of the field, such as skepticism and the Pyrrhonian problematic, the definition of knowledge, and the structure of epistemic justification Offers coverage of more specific topics, such as foundationalism vs coherentism, and virtue epistemology Presents wholly new sections on 'Testimony, Memory, and Perception' and 'The Value of Knowledge' Features modified sections on 'The Structure of Knowledge and Justification', 'The Non-Epistemic in Epistemology', and 'The Nature of the Epistemic' Includes many of the most important contributions made in recent decades by several outstanding authors

One of the world's leading epistemologists provides a sophisticated, revisionist introduction to the subject In this concise book, one of the world's leading epistemologists provides a sophisticated, revisionist introduction to the problem of knowledge in Western philosophy. Modern and contemporary accounts of epistemology tend to focus on limited questions of knowledge and skepticism, such as how we can know the external world, other minds, the past through memory, the future through induction, or the world's depth and structure through inference. This book steps back for a better view of the more general issues posed by the ancient Greek Pyrrhonists. Returning to and illuminating this older, broader

epistemological tradition, Ernest Sosa develops an original account of the subject, giving it substance not with Cartesian theology but with science and common sense. Descartes is a part of this ancient tradition, but he goes beyond it by considering not just whether knowledge is possible in the first place, but also how we can properly attain it. In Cartesian epistemology, Sosa finds a virtue-theoretic account, one that he extends beyond the Cartesian context. Once epistemology is viewed in this light, many of its problems can be solved or fall away. The result is an important reevaluation of epistemology that will be essential reading for students and teachers.

A rigorous, authoritative new anthology which brings together some of the most significant contemporary scholarship on the theory of knowledge Carefully-calibrated and judiciously-curated, this strong and contemporary new anthology builds upon *Epistemology: An Anthology, Second Edition* (Wiley Blackwell, 2008) by drawing a concise and well-balanced selection of higher-level readings from a large, diverse, and evolving body of research. Includes 17 readings that represent a broad and vital part of contemporary epistemology, including articles by female philosophers and emerging thought leaders Organized into seven thoughtful and distinct sections, including virtue epistemology, practical reasons for belief, and epistemic dysfunctions among others Designed to sit alongside the highly-successful anthology of canonical essays, *Epistemology: An Anthology, Second Edition* (Wiley Blackwell, 2008) Edited by a distinguished editorial team, including Ernest Sosa, one of the most influential active epistemologists Highlights cutting edge methodologies and contemporary topics for advanced students, instructors, and researchers

Download Free Epistemology An Anthology Blackwell Philosophy Anthologies

comprehensive introductory overview of key themes, thinkers, and texts in metaphysics and epistemology. Presents a wide-ranging collection of carefully excerpted readings on metaphysics and epistemology Blends classic and contemporary works to reveal the historical development and present directions in the fields of metaphysics and epistemology Provides succinct, insightful commentary to introduce the essence of each selection at the beginning of chapters which also serve to inter-link the selected writings

This volume represents the most comprehensive and authoritative collection of canonical readings in theory of knowledge. It is ideal as a reader for all courses in epistemology.

An outstanding voice in the field, the jazz critic for *The Village Voice* leads readers through the first century of the music in a voluminous, expert account of the great jazz artists past and present and their distinctive contributions. UP.

This anthology, intended to accompany *A Companion to Metaphysics* (Blackwell, 1995), brings together over 60 selections which represent the best and most important works in metaphysics during this century. The selections are grouped under ten major metaphysical problems and each section is preceded by an introduction by the editors.

Applied epistemology brings the tools of contemporary epistemology to bear on particular issues of social concern. While the field of social epistemology has flourished in recent years, there has been far less work on how theories of knowledge, justification, and evidence may be applied to concrete questions, especially those of ethical and political significance. This volume fills this gap in the current literature by bringing together leading philosophers in a broad range of areas in applied epistemology. The potential topics

in applied epistemology are many and diverse, and this volume focuses on seven central issues, some of which are general while others are far more specific: epistemological perspectives; epistemic and doxastic wrongs; epistemology and injustice; epistemology, race, and the academy; epistemology and feminist perspectives; epistemology and sexual consent; and epistemology and the internet. Some of the chapters in this volume contribute to, and further develop, areas in social epistemology that are already active, while others open up entirely new avenues of research. All of the contributions aim to make clear the relevance and importance of epistemology to some of the most pressing social and political questions facing us as agents in the world.

Western Philosophy: An Anthology provides the most comprehensive and authoritative survey of the Western philosophical tradition from ancient Greece to the leading philosophers of today. Features substantial and carefully chosen excerpts from all the greats of philosophy, arranged thematically and chronologically Readings are introduced and linked together by a lucid philosophical commentary which guides the reader through the key arguments Embraces all the major subfields of philosophy: theory of knowledge and metaphysics, philosophy of mind, religion and science, moral philosophy (theoretical and applied), political theory, and aesthetics Updated edition now includes additional contemporary readings in each section Augmented by two completely new sections on logic and language, and philosophy and the meaning of life
