## CHAPTER-1

Expert Systems: Principles and Programming, Third Edition. Joseph C.  
Giarratano, Gary D. Riley. Gary Riley was, for a long time, a NASA  
employee whose sole assignment seemed to be to work out the C  
implementation of the OPS language from LISP to C so that the military  
could use it. LISP, even the Symbolics LISP machine, was far too slow  
for practical applications.

Expert Systems: Principles and Programming, Third Edition ...

Expert Systems: Principles and Programming, Fourth Edition 17

Knowledge in Rule-Based Systems • Knowledge is part of a hierarchy. •  
Knowledge refers to rules that are activated by facts or other rules.  
• Activated rules produce new facts or conclusions. • Conclusions are  
the end-product of inferences when done according to formal rules.

Expert Systems: Principles and Programming, Fourth Edition 31  
Predicate Field Constraint • The predicate field constraint: allows for performing predicate tests directly within patterns. • The predicate field constraint is more efficient than using the test CE. • It can be used just like a literal field constraint - by itself or part of a complex field.
