Jax Hamill is a man who has changed his life - with lots of hard work and even more dumb luck. He's left the hell of his younger and wilder days behind, and now he has a bar, a house, a truck, and a motorcycle. Oh, and all the casual sex in a bar back room that a man like him may desire. Jax lives his carefree life for 'now', and keeps things 'temporary'. At least he did...until she threw everything he thought in to question. Sarah Matthews is a woman who would love to change her life in some ways. By default and sheer bad luck, she juggles a staggering number of responsibilities, both personal and professional. She's single, stressed, and seriously in need of some fun. If only she could escape her overly-scheduled, vanilla life, and cut loose... just for a little while. When Jax and Sarah decide to get together - just temporarily and just for fun - it changes both of their lives for the better. But when a man from Sarah's past returns, it changes everything for the worse. In fact, it couldn't be worse. As Sarah fights to come back to him, Jax is forced to confront the kind of person he was, who he is now, and the kind of man that he wants to be... both for Sarah, and for himself.

Special Agent Cece Blackwell is smart, savvy and knows her way around a race car Heading up a team to investigate the murder of a rally driver is right up her alley.

DANGEROUS CURVES AHEAD Sugar Jamison Ellis Garrett is dumping her critical boyfriend, opening a plus-size clothing store, and starting a blog—all to spread the word that fashion shouldn't require a size-two body, and happiness should allow for the occasional cupcake. Or two. But is indulging fantasies about her sister's long-ago ex, the still-hunky Michael Edwards, biting off more than she can chew? Mike must be losing his detective's touch. He doesn't recognize Ellis when he bumps into her at Size Me Up, and he certainly doesn't remember his ex-girlfriend's outspoken sister being so irresistible. Her curves are indeed dangerous—and so is her wit. Could it be that Ellis is his Perfect Fit? One thing's for sure: Mike will make it his sworn duty to find out...

"We were like dragonflies. We seemed to be suspended effortlessly in the air, but in reality, our wings were beating very, very fast." - Mae Murray "It is worse than folly for persons to imagine that this business is an easy road to money, to contentment, or to that strange quality called happiness." - Bebe Daniels "A girl should realize that a career on the screen demands everything, promising nothing." - Helen Ferguson In Dangerous Curves Atop Hollywood Heels, author Michael G. Ankerich examines the lives, careers, and disappointments of 15 silent film actresses, who, despite the odds against them and warnings to stay in their hometowns, came to Hollywood to make names for themselves in the movies. On the screen, these young hopefuls became Agnes Ayres, Olive Borden, Grace Darmond, Elinor Fair, Juanita Hansen, Wanda Hawley, Natalie Joyce, Barbara La Marr, Martha Mansfield, Mae Murray, Mary Nolan, Marie Prevost, Lucille Ricksen, Eve Southern, and Alberta Vaughn. Dangerous Curves follows the precarious routes these young ladies took in their quest for fame and uncovers how some of the top actresses of the silent screen were used, abused, and discarded. Many, unable to let go of the spotlight after it had singled their very souls, came to a stop on that dead-end street, referred to by actress Anna Q. Nilsson as, Hollywood's Heartbreak Lane. Pieced together using contemporary interviews the actresses gave, conversations with friends, relatives, and co-workers, and exhaustive research through scrapbooks, archives, and public records, Dangerous Curves offers an honest, yet compassionate, look at some of the brightest luminaries of the silent screen. The book is illustrated with over 150 photographs.

Dangerous Curves: Action Heroines, Gender, Fetishism, and Popular Culture addresses the conflicted meanings associated with the figure of the action heroine as she has evolved in various media forms since the late 1980s. Jeffrey A. Brown discusses this immensely popular character type as an example of, and challenge to, existing theories about gender as a performance identity. Her assumption of heroic masculine traits combined with her sexualized physical depiction demonstrates the ambiguous nature of traditional gender expectations and indicates a growing awareness of more aggressive and violent roles for women. The excessive sexual fetishism of action heroines is a central theme throughout. The topic is analyzed as an insight into the transgressive image of the dominatrix, as a refaction of the shift in popular feminism from second-wave politics to third-wave and post-feminist pleasures, and as a form of patriarchal backlash that facilitates a masculine fantasy of controlling strong female characters. Brown interprets the action heroine as a representation of changing gender dynamics that balances the sexual objectification of women with progressive models of female strength. While the primary focus of this study is the action heroine as represented in Hollywood film and television, the book also includes the action heroine's emergence in contemporary popular literature, comic books, cartoons, and video games.

All Melinda Martin wants out of life is an endless supply of ice cream, a man like Clark Kent, and for all of her Driver's Education students to pass. Everyone knows she has a love of food, an obsession with Superman, and she's stubborn and sarcastic, which probably hasn't helped her love life. When one of her students is in danger of failing, she decides it's time to contact his guardian, his uncle Charlie. Charlie Archer is the new guy in town, converting the old movie theater into a fancy restaurant. The movie theater means a lot to Melinda. It's where she first fell in love with Superman, and she wants to hate him for changing it. But when she meets him and sees that he bears a striking resemblance to a certain flying superhero, she is instantly smitten, and he is with her as well, sarcasm and all. Charlie comes from an old Hollywood family, and with that comes the perks and the pitfalls. As Melinda and Charlie's relationship heats up, they find themselves dealing with some interesting situations, such as a stray puppy, a Hollywood scandal, and a crazy ex-girlfriend, just to name a few. It's been said the road to love is filled with twists and turns, but this road may have a few more curves than normal!

The problem is that someone does ...

In this large-format book, lavishly illustrated in color throughout, Allan McRobie takes the reader on an alluring exploration of the beautiful curves that shape our world--from our bodies to Salvador Dal í 's paintings and the space-time fabric of the universe itself. The book focuses on seven curves--the fold, cusp, swallowtail, and butterfly, plus the hyperbolic, elliptical, and parabolic "umbilics"--and describes the surprising origins of their taxonomy in the catastrophe theory of mathematician René Thom.
