In Hauntings, James Hollis considers how we are all governed by the presence of invisible forms (spirits, ghosts, ancestral and parental influences, inner voices, dreams, impulses, untold stories, complexes, synchronicities, and mysteries) that move through us, and through history. He offers a way to understand them psychologically, examining the persistence of the past in influencing our present, conscious lives and noting that engagement with mystery is what life asks of each of us.

Hauntings is not a book about mediums or ghosts, is a book about those psychological ghosts (by absence and by presence) that make our lives more mechanical and more untrue to who we really are (our soul and inner self).

1.0 out of 5 stars hauntings: dispelling the ghosts who run our lives. Reviewed in the United Kingdom on 6 October 2015. I think the author considers himself to be a witty, urbane sophisticate. The reality he is a crushing bore, who has no understanding of how to communicate his message. Two things really wind me up.

In HAUNTINGS, James Hollis considers how we are all governed by the presence of invisible forms - spirits, ghosts, ancestral and parental influences, inner voices, dreams, impulses, untold stories, complexes, synchronicities and mysteries - which move through us and through history.

What does life ask of us, and how are we to answer that summons? Are we here just to propagate the species anew? Do any of us really believe that we are here to make money and then die? Does life matter, in the end, and if so, how, and in what fashion? What guiding intelligence weaves the threads of our individual biographies? What hauntings of the invisible world invigorate, animate, and direct the multiple narratives of daily life? In Hauntings, James Hollis considers how we are all governed by the presence of invisible forms-spirits, ghosts, ancestral and parental influences, inner voices, dreams, impulses, untold stories, complexes, synchronicities, and mysteries-which move through us, and through history. He offers a way to understand them psychologically, examining the persistence of the past in influencing our present, conscious lives and noting that engagement with mystery is what life asks of each of us. From such engagements, a deeper, more thoughtful, more considered life may come. James Hollis, PhD, is a co-founder of the C. G. Jung Institute of Philadelphia and Saybrook University's Jungian Studies program, director emeritus of the Jung Center of Houston, vice president emeritus of the Philemon Foundation, and an adjunct professor at Saybrook University and Pacifica Graduate Institute. He resides in Houston, Texas, where he conducts an analytic practice.

Working with the Shadow is not working with evil, per se. It is working toward the possibility of greater wholeness. We will never experience healing until we can come to love our unlovable places, for they, too, ask love of us. How is it that good people do bad things? Why is our personal story and our societal history so bloody, so repetitive, so injurious to self and others? How do we make sense of the discrepancies between who we think we are—or who we show to the outside world—versus our everyday behaviors? Why are otherwise ordinary people driven to addictions and compulsions, whether alcohol, drugs, food, shopping, infidelity, or the Internet? Why are interpersonal relationships so often filled with strife? Exploring Jung's concept of the Shadow—the unconscious parts of our self that contradict the image of the self we hope to project--Why Good People Do Bad Things guides you through all the ways in which many of our seemingly unexplainable behaviors are manifestations of the Shadow. In addition to its presence in our personal lives, Hollis looks at the larger picture of the Shadow at work in our culture—from organized religion to the suffering and injustice that abounds in our modern world. Accepting and examining the Shadow as part of one's self, Hollis suggests, is the first step toward wholeness. Revealing a new way of understanding our darker selves, Hollis offers wisdom to help you to acquire a more conscious conduct of your life and bring a new level of awareness to your daily actions and choices.

Outlines an approach to achieving happiness that counsels on ways to overcome fear-based hurdles, explains how to evaluate one's internal beliefs, and reveals the importance of pursuing growth rather than security.

How do you define “growing up”? Does it mean you achieve certain cultural benchmarks—a steady income, paying taxes, marriage, and children? Or does it mean leaving behind the expectations of others and growing into the person you were meant to be? If you find yourself in a career, place, relationship, or crisis you never foresaw and that seems at odds with your beliefs about who you are, it means your soul is calling on you to reexamine your path. With Living an Examined Life, James Hollis offers an essential guidebook for anyone at a crossroads in life Here this acclaimed author guides you through 21 areas for self-inquiry and growth—such as how to exorcise the ghosts of your past, when to choose meaning over happiness, how to construct a mature spirituality, and how to seize permission to be who you really are With his trademark eloquence and insight, Dr. Hollis offers a potent resource you'll return to time and again to energize and inspire you on your journey to create a life of personal authority, integrity, and fulfillment.

Title #59. Why do so many go through so much disruption in their middle years? Why then? Why do we consider it to be a crisis? What does the pattern mean and how can we survive it? The Middle Passage shows how we may pass through midlife consciously, rendering our lives more meaningful and the second half of life immeasurably richer.

The Best of James Hollis: Wisdom for the Inner Journey is a collection of excerpts from the writings of James Hollis, PhD, Jungian psychotherapist and author. These selections span across his body of work from The Middle Passage (1993) to Prisms (2021) organized into different topics ranging from the psychological concepts of Carl Jung to the everyday tasks of our living and callings. Hollis's wisdom will challenge readers to find their own path, to be who they are called to be, to take the risks to trust their soul, and thus live a life worthy of their unique gifts. Hollis's writings ask us to live a deeper and more authentic life. James Hollis, Ph.D. is a Jungian Analyst in private practice in Washington, DC. Originally a Professor of Humanities, he is the former Director of the Houston Jung Center and the Washington, D.C. Jung Society. He is Vice-President emeritus of the Philemon Foundation, author of seventeen books, and a frequent public speaker. He lives with his wife Jill, a retired therapist and painter, and together they have three living children.

What guides us when our world is changing? Discover the path to deeper meaning and purpose through depth psychology and classical thought. How did we get to this crossroads in history? And will we make it through—individually and as a species? “We all assumed that learning, rationality, and good intentions would prove enough to bring us to the promised land,” says Dr. James Hollis. “But they haven’t and won’t. Yet what we also do not recognize sufficiently is that this human animal is equipped for survival. In time, as we have seen of life’s other insolubles, we grow large enough to contain what threatened to destroy us.” Dr. Hollis’s readers know him as a penetrating thinker who brings profound insight and sophistication to the inner journey. In Living Between Worlds, he broadens his lens to encompass the relationship between our inner struggles and the rapidly shifting realities of modern human existence. You will learn to invoke the tools of depth psychology, classical literature, philosophy, dream work, and myth to gain access to the resources that supported our ancestors through their darkest hours. Through these paths of inner exploration, you will access your “locus of knowing”—an inner wellspring of deep resilience beyond the ego, always available to guide you back to the imperatives of your soul. Though many of the challenges of our times are unique, the path through for us, personally and collectively, will always rely on our measureless capacity for creativity, wisdom, and connection to a reality larger than ourselves. Here you will find no easy answers or pat reassurances. Yet within the pages of Living Between Worlds, you will encounter causes for hope. “We can find what supports us when nothing supports us,” Hollis teaches. “By bearing the unbearable, we go through the desert to arrive at a nurturing oasis we did not know was there.”

What does it really mean to be a grown up in today’s world? We assume that once we “get it together” with the right job, marry the right person, have children, and buy a home, all is settled and well. But adulthood presents varying levels of growth, and is rarely the respite of stability we expected. Turbulent emotional shifts can take place anywhere between the age of thirty-five and seventy when we question the choices we’ve made, realize our limitations, and feel stuck—commonly known as the “midlife crisis.” Jungian psycho-analyst James Hollis believes it is only in the second half of life that we can truly come to know who we are and thus create a life that has meaning. In Finding Meaning in the Second Half of Life, Hollis explores the ways we can grow and evolve to fully become ourselves when the traditional roles of adulthood aren’t quite working for us, revealing a new way of uncovering and embracing our authentic selves. Offering wisdom to anyone facing a career that no longer seems fulfilling, a long-term relationship that has shifted, or family transitions that raise issues of aging and mortality, Finding Meaning in the Second Half of Life provides a reassuring message and a crucial bridge across this critical passage of adult development.
