Based on Sanskrit mathematical aphorisms found in the Atharvaveda.

Activity book and Story Book

Children are naturally inquisitive and eager to explore and learn about the world around them. It is important for their guardians, both Parents and Teachers, to satisfy their queries, and that too, in such a way that the children are able to understand and comprehend the concepts as well as learn from them. Also, there exists a gap in the level of information and knowledge provided to the children by the Parents vs. that provided by their Teachers. Discrepancies might also exist in the methodology(ies) through which the information and knowledge is relayed. This increases the possibility that the children might either not understand the concept clearly or become confused about the correct interpretation of the concepts. With these objectives in mind, and to build connectivity between the teaching methodologies by Parents and Teachers, we at Oswaal Books, have come up with this Manual for Teachers and Parents. Some benefits of using this manual are: • It aims to aid the Teachers and Parents in simplifying the concepts studied by children as a part of their curriculum • It equips the parents and teachers to enable the children to understand the subjects, and also evaluate their measure of understanding and creativity. • It includes Learning and Understanding Aids along with a Lesson Plan for each Chapter • It demonstrates Effective Teaching Techniques • It also gives various Propositions for Step-wise Learning and Building up of Concepts IMPORTANT FEATURES OF THE BOOK: Strictly based on latest NCERT Textbook The manual is based on the latest NCERT Textbook 6 Exploratory Learning objectives These provide explicit instructions to parents and teachers to teach their wards Effective Teaching Techniques The manual has tried and tested teaching techniques for higher success rate WHAT THIS BOOK HAS FOR YOU: Lesson Plan for each Chapter This provides clarity and direction to the users Tabulated and Categorized information This helps in creating and effectively executing the lesson plan 5Es of Learning This Manual is based on the 5 Es of Learning: Engage, Explore, Explain, Elaborate & Evaluate About Oswaal Books: We feel extremely happy to announce that Oswaal Books has been awarded as 'The Most Promising Brand 2019' by The Economic Times. This has been possible only because of your trust and love for us. Oswaal Books strongly believes in Making Learning Simple. To ensure student-friendly, yet highly exam-oriented content, we take due care in developing our Panel of Experts. Accomplished teachers with 100+ years of combined experience, Subject Matter Experts with unmatched subject knowledge, dynamic educationists, professionals with a keen interest in education

Environmental Studies: Understanding the World Around Us is a series of five books for classes 1 to 5 on Environmental Studies. The series strictly follows the new NCERT syllabus and the vision of the National Curriculum Framework (NCF) 2005. The series introduces young learners to their environment. They also learn how to preserve it while reading the books. The books have been written in a child-friendly language and are supported by lively illustrations. The concepts have been explained in a simple, clear and logical manner for better understanding.

I Am Perfectly Designed is an exuberant celebration of loving who you are, exactly as you are, from Karamo Brown, the Culture Expert of Netflix's hit series Queer Eye, and Jason Brown—featuring illustrations by Anoosha Syed. In this empowering ode to modern families, a boy and his father take a joyful walk through the city, discovering all the ways in which they are perfectly designed for each other. "With tenderness and wit, this story captures the magic of building strong childhood memories. The Browns and Syed celebrate the special bond between parent and child with joy and flair...Syed's bright, cartoon illustrations enrich the tale with a meaningful message of kindness and inclusion."—Kirkus

Grammar Magic is a series of eight books for students of Classes 1 to 8. It aims at helping learners grasp grammatical concepts with ease through its learner friendly approach. It offers sufficient practice in grammar, comprehension and composition. The ebook version does not contain CD.

Environmental Studies: Understanding the World Around Us is a series of five books for classes 1 to 5 on Environmental Studies. The series strictly follows the new NCERT syllabus and the vision of the National Curriculum Framework (NCF) 2005. The series introduces young learners to their environment. They also learn how to preserve it while reading the books. The books have been written in a child-friendly language and are supported by lively illustrations. The concepts have been explained in a simple, clear and logical manner for better understanding.

"An elegant and amusing account" of how gambling has been reshaped by the application of science and revealed the truth behind a lucky bet (Wall Street Journal). For the past 500 years, gamblers-led by mathematicians and scientists-have been trying to figure out how to pull the rug out from under Lady Luck. In The Perfect Bet, mathematician and award-winning writer Adam Kucharski tells the astonishing story of how the experts have succeeded, revolutionizing mathematics and science in the process. The house can seem unbeatable. Kucharski shows us just why it isn't. Even better, he demonstrates how the search for the perfect bet has been crucial for the scientific pursuit of a better world.
