Synopsis. This novel, written in 1864 and first published in 1865, follows the fortunes of a middle-aged spinster "overwhelmed with money troubles", as she tries to assess the worth and motives of four very different suitors. In "Miss Mackenzie", Trollope made a deliberate attempt "to prove that a novel may be produced without love", by choosing as his heroine an unattractive, middle-aged woman, but as he admits in his autobiography, even

Trollope is usually seen as a faithful mirror of Victorian England, both in providing intimate details of contemporary life and in endorsing the moral attitudes and certainties of the period. His powers of empathy make his characters convincing and knowable in an astonishing way. Yet the Victorians restricted women to the house and severely limited their rights and opportunities. Trollope and *Women* examines the conundrum of how a great novelist could both accept the conventional values of the time and yet be

able to see and sympathise with the impossible situations in which Victorian women often found themselves. Margaret Markwick shows the individuality of Trollope's women: even conventional Angel in the House heroines, like Mary Lowther in *The Vicar of Bullhampton*, can surprise us at times. More tellingly, he cannot help giving some of his less angelic characters, such as the vivacious Lizzie Eustace in *Eustace Diamonds*, his unwilling admiration. His range extends beyond simple romance to the realistic handling of marriages, both happy and unhappy, and to the treatment of bigamy

and scandal. He shows men and women getting on together as well as fighting bitterly. Nor are Trollope's novels as devoid of sex as has often been thought.

New Men in Trollope's Novels challenges the popular construction of Victorian men as patriarchal despots and suggests that hands-on fatherhood may have been a nineteenth-century norm. Beginning with an evaluation of the evidence for cultural determinations of masculinity during Trollope's times, Markwick sets the stage with a discussion of the religious, philosophical, and educational

influences that informed the evolution of Trollope's personal views of masculinity as he grew from boyhood into later manhood. Her treatment of his novels, drawing on a wide selection from across the oeuvre, shows that sensitive examination of Trollope's texts discovers him advancing a startlingly modern model of manhood under a veneer of conformity. Trollope's independent views on child-rearing, education, courtship, marriage, parenthood, and gay men are also discussed within the context of Victorian culture in this witty, original, and immensely knowledgeable study of Victorian

masculinity.

A study of the interrelationship of the Victorian novel with other forms of writings, arguing that the whole literary culture was concerned with the production of Victorian values, including novels, an active part in the compromise between aristocratic and middle class cultures in this period.

This study relates Trollope to the broad Victorian culture to which he offered a

distinctive, creative response. It looks particularly at the nature and quality of his political intelligence and at his grasp of processes of manipulation, personal interaction, media exploitation and the integration of the private and the public. It also assesses Trollope's continuing popularity as a writer - outselling many of his more critically 'esteemed' contemporaries in the late-twentieth-century and offers a lucid and comprehensive introduction to the full range of Trollope's popular works.

Trollope and the Magazines examines the

serial publication of several of Trollope's novels in the context of the gendered discourses in a range of Victorian magazines - including Cornhill, Good Words, Saint Pauls, and the Fortnightly Review. It highlights the importance of the periodical press in the literary culture of Victorian Britain, and argues that readers today need to engage with the lively cultural debates in the magazines, in order better to appreciate the complexity of Trollope's popular fiction.
