A bright, bold debut about a girl who happens to have been born a boy, but refuses to let that stand in the way of her dream.

"When thirteen-year-old Truly is invited to sit at the Popular Table, she finds herself caught in a web of lies and misunderstandings, made unescapable by the hyperconnected social media world"--

One night during the Perseid meteor shower, Arianne thinks she sees a shooting star land in the fields surrounding her family's horse farm. About a year later, one of their horses gives birth to a baby centaur. The family has enough attention already as Arianne's six-year-old brother was born with birth defects caused by an experimental drug—the last thing they need is more scrutiny. But their clients soon start growing suspicious. Just how long is it possible to keep a secret? And what will happen if the world finds out? At a time when so many novels are set in other worlds, Jane Yolen imagines what it would be like if a creature from another world came to ours in this thoughtfully written, imaginative novel, Centaur Rising. A Christy Ottaviano Book

In a society that purges thirteen-year-olds who are creative, identical twins Aaron and Alex are separated, one to attend University while the other, supposedly eliminated, finds himself in a wondrous place where youths hone their abilities and learn magic.

Christina Diaz Gonzalez has created a fast-paced thrill-ride of a book, rich with riddles and myth, that young readers will not want to put down.

Twelve-year-old Mysti Murphy wishes she were a character in a book. If her life were fictional, she'd magically know how to deal with the fact that her best friend, Anibal Gomez, has abandoned her in favor of being a "hipster." She'd be able to take care of everyone when her dad has to spend time in the hospital. And she'd certainly be able to change her family's secret. Seventh grade is not turning out the way Mysti had planned. With the help of a hot-air balloon, her new friend Rama Khan, and a bright orange coat, can she find the courage to change?

Aspiring to win a cash prize that will help his family avoid eviction after his father passes away, seventh-grader Benjamin Epstein uses his flair for clever slogans to participate in a contest being run by a bathroom tissue company. Simultaneous eBook.

Based on the latest version of the language, this book offers a self-contained, concise and coherent introduction to programming with Python. The book ' s primary focus is on realistic case study applications of Python. Each practical example is accompanied by a brief explanation of the problem-terminology and concepts, followed by necessary program development in Python using its constructs, and simulated testing. Given the open and participatory nature of development, Python has a variety of incorporated data structures, which has made it difficult to present it in a coherent manner. Further, some advanced concepts (super, yield, generator, decorator, etc.) are not easy to explain. The book specially addresses these challenges; starting with a minimal subset of the core, it offers users a step-by-step guide to achieving proficiency.

In this inventive, fast-paced novel, New York Times bestselling and Printz Award-winning author Paolo Bacigalupi takes on hard-hitting themes--from food safety to racism and immigration--and creates a zany, grand-slam adventure that will get kids thinking about where their food comes from. The zombie apocalypse begins on the day Rabi, Miguel, and Joe are practicing baseball near their town's local meatpacking plant and nearly get knocked out by a really big stink. Little do they know the plant's toxic cattle feed is turning cows into flesh-craving monsters! The boys decide to launch a stealth investigation into the plant's dangerous practices, unknowingly discovering a greedy corporation's plot to look the other way as tainted meat is sold to thousands all over the country. With no grownups left they can trust, Rabi and his friends will have to grab their bats to protect themselves (and a few of their enemies) if they want to stay alive...and maybe even save the world.

Annie Sullivan was little more than a half-blind orphan with a fiery tongue when she arrived at Ivy Green in 1887. Desperate for work, she'd taken on a seemingly impossible job-teaching a child who was deaf, blind, and as ferocious as any wild animal. But if anyone was a match for Helen Keller, it was the girl who'd been nicknamed Miss Spitfire. In her efforts to reach Helen's mind, Annie lost teeth to the girl's raging blows, but she never lost faith in her ability to triumph. Told in first person, Annie Sullivan's past, her brazen determination, and her connection to the girl who would call her Teacher are vividly depicted in this powerful novel.
