Basic Objectives of the Biomedical Instrumentation □ Under mentioned are the principal objectives of a biomedical instrumentation system

1. Information Gathering: Instruments used to measure natural phenomena to aid man in the quest of knowledge about himself.
- 2.

Read Book Principles Of Biomedical Instrumentation And Monitoring

Bio medical instrument □ introduction
Components of Biomedical
Instrumentation System. Any medical
instrument consists of the following
functional basic parts . 1. Measurand: The
measurand is the physical quantity, and the
instrumentation systems measure it.

Read Book Principles Of Biomedical Instrumentation

Human body acts as the source for measurand, and it generates bio-signals.
