The Hazard Communication Answer Book covers the newly revised Hazard Communication Standard, also known as HazCom, HCS, 29 CFR 1910.1200 and Right to Know. OSHA has aligned with the Globally Harmonized System (GHS), a global hazard communication system that standardizes the classification of chemicals and the communication of hazards via labels and SDS sheets.

What The Hazard Communication Answer Book does well is the primary reason I rated this at four stars. I admit, though, that four stars might be a tad more charitable than I normally would be. Part One of this 475 page book is more or less a rehash of the standard requirement that is easy enough to find on OSHA's web site at osha.gov, but, for some people, Part One will be useful.

The Hazard Communication Answer Book will help you learn: About the new labels and SDSs; What GHS is, and why your understanding of it is crucial; How the new standard will affect your workplace; What changes are required in classification, labeling, and employee training; What the new pictograms mean

~~Minnesota Safety Council: Hazard Communication Answer Book~~

The revised Hazard Communication Standard (HCS) is a modification to the existing standard. The parts of the standard that did not relate to the GHS (such as the basic framework, scope, and exemptions) remained largely unchanged. There have been some modifications to terminology in order to align the revised HCS with language used in the GHS.
