Handbook: The problem for improvisers is anxiety. faced with a lot of nameless eyes staring at us, and feeling more than anything else like prey, we are likely to want to display very consistent behavior, so that anyone who looks at us, looks away and then looks back sees the same thing. Thus we become boring, we fade into the background, and we cease to be of interest. scene. The Improv Handbook also contains an essential performance segment that details different formats of improvisation. Chapter topics include Theatresports, Micetro, Gorilla Theatre, and the inventions of Keith Johnstone and Del Close as well as other popular forms of improv, like those on "Whose Line is it Anyway." The core section of the book is called simply, "How to Improvise" and delves into issues of spontaneity, the fundamentals of storytelling, working together, upping the ante, and character development. The book concludes with sections on how to improvise in front of an audience and- just as crucially- how to attract an audience in the first place.

Divided into four sections, 'Status', 'Spontaneity', 'Narrative Skills', and 'Masks and Trance', arranged more or less in the order a group might approach them, the book sets out the
