## The Lucifer Principle: A Scientific... book by Howard Bloom

The Lucifer Principle is a 1995 book by American author Howard Bloom, in which he argues that social groups, not individuals, are the primary "unit of selection" on genes and human psychological development. He states that both competition between groups and competition between individuals shape the evolution of the genome. Bloom "explores the intricate relationships among genetics, human behavior, and culture" and argues that "evil is a by-product of nature's strategies for creation and that it
