Negotiation Training Part III The Procurement And Supply Managers

Procurement and supply management involves buying the goods and services that enable an organisation to operate in a profitable and ethical manner. What's involved? Responsibilities vary from sourcing raw materials and services to managing contracts and relationships with suppliers.

What is procurement and supply? | CIPS

Sean Kolenko. Understanding the difference between procurement and supply chain management is crucial, as these terms are not interchangeable but they often get mixed up. Procurement is the process of acquiring the goods your company needs for its business model. Supply chain management is the process of turning those goods into products and distributing them to customers as efficiently as possible.

Procurement vs. Supply Chain Management: What's Different?

"The Future of Procurement and Supply Management" paper offers a reflection of what the profession may look like fifteen years from now. CIPS are pleased to have worked with Aston University and the University of Liverpool to undertake workshops with the CIPS community in order to bring the paper to our member community.
