Contents: What is Wrong with Teacher Education?, Is Distance Education Relevant?, What Has It Been Used for?, How is It Planned And Managed?, What Technologies Can We Use?, How Can You Fund It?, How Do Teachers Learn Practical Skills?, How Can We Assess It?

Despite being written mainly in the third person, this book enables the perceptive reader to study a dramatic part of South Africas history through the experiences of the main protagonist. Because of his legal background, Daniel is able to see how an initially fair legal system is corrupted in order to serve the increasingly desperate needs of the White minority. This is a mere backdrop, however, to a love story that grows closer to tragedy as time passes because the heroine is an alcoholic. The arrival of the computer alters the career of the hero dramatically and sends him on some overseas adventures to learn more about the legal implications of the new machine. As a leader of a missionary team to Malawi, Daniel also gets to grips with people with a totally different background and a differing worldview. The book is sensitive to background and atmosphere, and the hero encapsulates some of this in a few poems that form part of the main text. Jealousy, that green-eyed monster, also rears its head occasionally and further complicates relationships.

Discusses primate evolution, behavior, and classification, and provides detailed information and illustrations, arranged geographically, on every family and nearly three hundred species.

Motivation makes all the difference. And what's more motivating than the expectation of success? The instructions are clear and to the point, so students can quickly get down to writing practice in these 64-page worktexts. Helpful prompts pack the worktext lesson pages including illustrations, examples, and sample responses. Sample Content: book and movie reviews, travelogue, a character sketch, fashions.

Get a solid understanding of Java fundamentals to master programming through a series of practical steps Key Features Enjoy your first step into the world of programming Understand what a language is and use its features to build applications Learn about a wide variety of programming applications Book Description Have you ever thought about making your computer do what you want it to do? Do you want to learn to program, but just don't know where to start? Instead of guiding you in the right direction, have other learning resources got you confused with over-explanations? Don't worry. Look no further. Introduction to Programming is here to help. Written by an industry expert who understands the challenges faced by those from a non-programming background, this book takes a gentle, hand-holding approach to introducing you to the world of programming. Beginning with an introduction to what programming is, you'll go on to learn about languages, their syntax, and development environments. With plenty of examples for you to code alongside reading, the book's practical approach will help you to grasp everything it has to offer. More importantly, you'll understand several aspects of application development. As a result, you'll have your very own application running by the end of the book. To help you comprehensively understand Java programming, there are exercises at the end of each chapter to keep things interesting and encourage you to add your own personal touch to the code and, ultimately, your application. What you will learn Understand what Java is Install Java and learn how to run it Write and execute a Java program Write and execute the test for your program Install components and configure your development environment Learn and use Java language fundamentals Learn object-oriented design principles Master the frequently used Java constructs Who this book is for Introduction to Programming is for anybody who wants to learn programming. All you ' ll need is a computer, internet connection, and a cup of coffee.

This book is essential for academics that enter the field of higher education and training, as it focuses on preparing teachers and trainers to respond appropriately to student success challenges. Student success is a burning issue,both globally and locally. While student achievement is determined by a combination of factors, teachers and their teaching practices do matter. Higher education teachers are expected to fulfil different roles at different times, such as planning for curriculum implementation, mentorship and coaching, facilitating learning, resource development, and student assessment. Against this background the primary purpose of Empowering novice academics for student success: Wearing different hats is building the capacity of novice teachers and trainers to play an influential role in increasing student success throughout.
